

Headteacher: Mrs L Ayling BA (Hons) NPQH

January 2018

Dear Parent/Carer

### **Revision Apps**

During assembly this week we introduced your daughter to a new way of studying and revising for Science. This is in the form of an online APP from a company called Tassomai - [www.tassomai.com](http://www.tassomai.com)

We have recently introduced the APP to our Year 11 students who say that it is making a huge difference to their general knowledge and understanding of Science. The APP presents questions to your daughter based on all aspects of her science curriculum. It will recognise aspects that she finds more challenging and present more questions related to this topic; so it really targets the content where she is less secure. The programme will provide scores and help her to target which aspects to revise. She will also be part of a 'leader' board where she can look at her progress against others in the year group. Her teachers can monitor her progress and support as necessary. Students who have access to the APP will not be set additional home learning and can use the APP to work at home. It is accessible from a mobile phone, tablet, PC; any device with internet access.

The GCSE content is now much more challenging and having a real grasp on the course content provides your daughter with a solid foundation on which to build. The cost of the APP is **£10.00** and this enables access for the full academic year.

Please complete the attached reply slip to order this app for your daughter. Payments can be made online via ParentMail or via the Finance Office daily between **8.30am - 9am**. **All payments must be received by Wednesday 7 February** (Please note that we may not be placing another order after this date and would advise taking this opportunity if you wish to purchase). We have had this app highly recommended and one school referred to it as, 'a game changer' in terms of impact on revision and final outcomes. Please refer to the Tassomai website for more details.

Once the order has been placed, your daughter will receive an access code as well as guidance from her Science teacher.

I cannot recommend this product to you enough and feel it will be of huge benefit for your daughter as she prepares for her final GCSE examinations.

Should you have any further questions please contact Mr P Hignett: Subject Leader Science [hignett@prentonhighschool.co.uk](mailto:hignett@prentonhighschool.co.uk)

Thank you for your ongoing support.

Yours faithfully

Mrs Geraldine Fraser  
Deputy Manager

**YEAR 10 REVISION APPS - REPLY SLIP**

Please return to the school office by **Wednesday 7 February 2018**

Student Name: ..... Form: .....

I would like to purchase the Tassomai Science app at a cost of **£10.00**

I have paid online (ParentMail)

I have enclosed correct cash/cheque payable to Prenton High School

\*please tick as appropriate

Parent/Carer signature: .....

By signing this letter, I am confirming I have parental responsibility for the child named.
