POLICY DEVELOPMENT AND CONSULTATION

This policy was devised using;

- Local Authority guidelines.
- DfE and ACPO Drug advice for schools 2012 documentation.
- Misuse of Drugs Act 1971.
- Misuse of Drugs Act 2010.
- 2013 Temporary Misuse of Drugs Act (concerning so called Legal-Highs).
- 2016 Bill on New Psychoactive Substances.
- Guidance for Schools 2004

This policy was written by the Designated Safeguarding Leaders at the school.

POLICY REVIEW

This policy will be reviewed every 2 years with the next review due in Spring 2022.

Owned:	Outcomes and Performance
Reviewed:	Spring 2020
Ratified:	Summer 2022
Next review:	Spring 2022

1 THE ROLE OF THE SCHOOL

As part of the school's statutory duty to promote students' wellbeing, Prenton High School has a clear role to play in preventing drug misuse. This is recognised as an essential part of the school's safeguarding responsibility. The fundamental role of the school is to create a safe and productive environment for all. Nothing in this document is intended to extinguish an individual's right to lawful privacy.

2 SCHOOL DESCRIPTION

Prenton High School all an ability school with approximately 820 students on roll. The school community is committed to ensuring that students feel safe and happy. We aim to enable students to become independent, self-confident and self-motivated adults who can be successful in a changing world.

3 VALUES AND ETHOS

A high performing school that makes a positive difference to the lives of our students and sits at the heart of a thriving local community.

Making a positive difference today to achieve a better tomorrow by:

- Trust – Being reliable, dependable and encouraging confidence within yourself and others.
- Respect – Accepting individuality, respecting yourself, others, our environment and our right to learn.
- Integrity – Demonstrating strong moral principles whilst being positive models and showing honesty in making the right decision.
- Kindness – Acting with compassion and empathy whilst being friendly, approachable and showing care and consideration to all.
- Endeavour – Working persistently hard with care and resilience, to show commitment towards achieving our goals and working towards our futures.

4 DEFINITIONS AND TERMINOLOGY

Drugs as defined by the DfE as any substance that has the potential to affect how a person thinks, feels or behaves. Under the Misuse of Drugs Act 1971 / 2010 the school drug policy includes the following substances:

Legal Drugs – Including, caffeine, energy drinks, tobacco, e-cigarettes / vapes, alcohol, khat, nitrites (poppers), VSA (volatile substances).

Illegal Drugs – Those controlled by the Misuse of Drug Act legislation, including anabolic steroids, cannabis, cocaine, ecstasy, cocaine, methedrone and heroin.

New Psychoactive Substances – Psychoactive Substances Act came into effect in spring 2016. Previously known as 'legal highs' which contain one or more chemical substances which produce similar effects to illegal drugs (like cocaine, cannabis and ecstasy).

Medicines – Including over the-counter and prescription drugs. Some students may require medicines that have been prescribed for their medical condition during the school day. More detailed information can be found in Managing Medicines in Schools and Early Year Setting; Managing Medicines in Schools and Early Years Settings

Substances covered in the policy are not to be bought, sold or otherwise exchanged or brought onto school premises during the school day, or while students are on school visits.

5 POLICY PRODUCTION AND APPLICABILITY

This policy has been informed by the following;

- DfE and ACPO Drug advice for schools 2012 documentation.
- Misuse of Drugs Act 1971.
- Misuse of Drugs Act 2010.
- Managing Medicines in Schools and Early Years Setting (DfE)

Owned:	Outcomes and Performance
Reviewed:	Spring 2020
Ratified:	Summer 2022
Next review:	Spring 2022

- 2016 Bill on New Psychoactive Substances

This policy links to other school policies, including Safeguarding, Behavioural Management and Health and Safety. This policy applies at all times on the school premises and extends to cover journeys to and from school. It also covers students on work experience, alternative provision placements and to all school trips, including those abroad.

6 WHO DOES THE POLICY APPLY TO?

The policy applies to all members of staff in our school, including all permanent, temporary and support staff, governors, volunteers, parents, contractors and external services or activity providers

This policy applies to all students in this school. A copy of the school's drug policy can be found on the school website at www.prentonhighschool.co.uk

This policy will be updated and reviewed every 2 years and will act as a central reference point for all school staff, or following identification of new/emerging trends in children and young people's behaviour.

DRUG EDUCATION

7 DRUG EDUCATION AIMS

Drug education aims to enable students to develop their knowledge, skills, attitudes and understanding about unauthorised, legal and illegal substances and to appreciate the benefits of a healthy lifestyle, relating this to their own and others' actions.

Drug education aims to:

- Provide accurate information.
- Correct misunderstandings.
- Build on knowledge and understanding.
- Explore attitudes and values towards drugs, drug use and drug users.
- Develop students' understanding of rules and laws.
- Develop students' interpersonal skills.
- Develop students' self-awareness and self-esteem.
- Explore the risks and consequences of their own and others' actions; and
- Be relevant to the needs of students and the school community.
- Inform students of support both within and outside of school.

8 DRUG EDUCATION CURRICULUM DELIVERY

Drug education is mandatory in accordance with the National Curriculum for Science. Students need to feel confident and relaxed about discussing issues related to illegal substances. For this to happen teachers need to be confident and to use a range of strategies to help young people to discuss their ideas, thoughts and feelings openly. At Prenton High School High School the Drug Education Programme is delivered through the PSHE curriculum, assemblies, workshops and targeted student support sessions.

DRUG RELATED INCIDENTS

9 MANAGING DRUGS IN SCHOOL

School will not tolerate the use or possession of unauthorised legal or illegal controlled substances by students, staff, Governors, visitors or other members of the school community including parents, in school time, on school premises or off-site during school organised activities such as trips and work experience. This also extends to NPS, alcohol, tobacco, volatile substances, amyl nitrates, and substances that cause states of intoxication. This is not an exhaustive list and it will be reviewed in accordance with circumstances as they develop.

The Senior Leaders with responsibility for drug related incidents are the Headteacher, the Deputy Headteacher and Head of Student Services. All drug related incidents will be reported to the Head of Student Services who will be responsible for coordinating the most appropriate response.

Owned:	Outcomes and Performance
Reviewed:	Spring 2020
Ratified:	Summer 2022
Next review:	Spring 2022

Drug related incidents will be dealt with fairly and with due regard for the facts as they present themselves, as well as the health, pastoral, educational and welfare needs of any person involved and the school community. In the first instance the possibility of a medical emergency will be considered.

Type	Example
Suspicion	A student/carer, member of staff or visitor is thought to be under the influence of a drug, or the supply of a substance.
Observation	A student demonstrates, perhaps through actions, play and inappropriate level of knowledge of drugs for their age.
Disclosure	A student discloses that they or their family member / friend are misusing drugs .
Discovery	A teacher may find a substance on school premises or from student during a search. This also includes discoveries from students via social media sites; for example Snapchat, Facebook Instagram etc.

9.1 Dealing with medical emergencies involving drugs

If a young person has lost consciousness when suspected of taking drugs:

- Stay calm - some drugs act on the central nervous system in a way which makes it potentially dangerous to induce a state of agitation by shouting or over-reacting.
- Put the young person in the recovery position.
- Loosen clothing to assist the casualty's breathing.
- Do not give anything to drink.
- Send for the First Aider and for an ambulance.
- Check the casualty is breathing regularly.
- Collect any evidence of what has been taken e.g. tablets, syringes and keep any vomited material.
- Wait for the ambulance and reassure the casualty if they regain consciousness.

9.2 If a young person is 'high' or hallucinating

- Be prepared for behaviour from depressed to very quiet to excitable and incoherent.
- Do not allow the young person to get into a dangerous situation.
- Sit the young person down in a quiet, well ventilated room.
- Talk to the young person quietly and calmly, reassure.
- Send for the First Aider.
- Use on-call to alert a member of the SLT.

9.3 Detection

At Prenton High School we will approach searching for illegal substances with sensitivity. The school reserves the right to use a variety of strategies to search for drugs as it is deemed necessary, based on a sound evidential basis for suspicion of wrong doing on school premises and in the interests of health and safety of all staff and students.

9.4 Searches of school property

Staff may search school property such as students' lockers if they believe illegal or unauthorised substances to be stored in them. This should be done only if there is reason to believe that the locker contains such a substance and with the agreement of a member of the SLT.

Owned:	Outcomes and Performance
Reviewed:	Spring 2020
Ratified:	Summer 2022
Next review:	Spring 2022

9.5 Personal searches and searches of personal property

When a person is suspected of concealing illegal or unauthorised substances every effort should be made to persuade the person to hand over the substance in the presence of a second adult witness. A full record of the exchange should be made by the observing member of staff.

Advice on searching and confiscations can be found in [Searching, Screening and Confiscation for Schools; Advice for Headteachers, school staff and governing bodies.](#)

Searching with Consent

Schools common law powers enable school staff to search students with their consent for any item. School is NOT required to have formal written consent from the student for this sort of search – it is enough for the teacher to ask the student to turn out his or her pockets or if the teacher can look in the student’s bag or locker and for the student to agree.

Searching without Consent

The Headteacher or member of staff authorised by the Headteacher can search without consent if they have reasonable grounds for suspecting that a student is in possession of a prohibited item or is likely to commit an offence, or to cause personal injury, or damage. These include;

- Knives or weapons, alcohol, illegal drugs and stolen items
- Tobacco and cigarette papers, fireworks and pornographic images
- Any article that the member of staff reasonably suspects has been, or is likely to be, used to commit an offence, or to cause personal injury, or damage to property; and
- Any item banned by the school rules which has been identified in the rules as an item which may be searched for.

The police may conduct a personal search if they believe a crime has taken place or to prevent harm to a student or others following an arrest. School has no legal obligation to report incidents involving illegal substances to the police; however, Prenton High School for Girls works in partnership with the local police, takes their advice and involves them or other relevant agencies appropriately. Parents will be contacted if deemed appropriate.

9.6 Confiscation and disposal of unauthorised substances

The law permits school staff to take temporary possession of a substance suspected of being an illegal substance for the purpose of preventing an offence from being committed; provided that all reasonable steps are taken to destroy or deliver it to a person lawfully entitled to take custody of it.

9.7 Alcohol, Tobacco and e cigarettes

When confiscated, parents/carers should normally be informed and given the opportunity to collect items, unless this would jeopardise the safety of the child or others.

Volatile substances may be dangerous and so school should arrange for safe disposal. Parents/carers should normally be informed unless this would jeopardise the safety of the child or others.

Medicines should be held in the Main Office. Parents/carers should collect and dispose of any unused or date expired medicines, or school will dispose of them in the appropriate manner. Medication taken in any way to replicate drug taking behaviour will be dealt with in accordance with school policy on drug related incidents.

New Psychoactive Substance found on the school premises should be sealed in a plastic bag and labelled. They should be stored in a secure location that can be accessed by members of the SLT only. The police will be notified for disposal. If illegal substances are found, it is our legal duty to hand them to the police as a matter of urgency. **The police may then identify whether it is an illegal drug.**

School staff must not attempt to analyse or taste unknown substances. Police can advise or analyse substances, if necessary, which may be required for prosecution or further investigation.

9.8 Responding to students involved in drug related incidents

The school will carefully investigate the nature and seriousness of any drug related incident taking account of:

In the event of drug related incident the school is advised as best practice to contact the Wirral School Drugs Adviser Lea Sloan (Wirral School Drugs Adviser) for support and advice on 0151 650 5488 M: 07703380957 or lea.sloan@barnardos.org.uk

All Wirral primary and secondary schools have a designated 'Wirral Schools Drugs Adviser'. The SDA works in partnership with other agencies these include, Health Services in Schools, Additional Youth Support, School Nursing Service, the police, and targeted services. The role provides the following;

- Free confidential advice, guidance and support on all drug related incidents / issues in and outside of school.
- Support within the implementation of your school drug policy.
- A recommended, comprehensive and standardised drug education programme for all students.
- Up-to-date training sessions within a range of drug related subjects to all staff.

The school's nominated senior professional responsible for all drug related issues is the Head of Student Services, champions good practice and liaises with the School Drugs Adviser on a regular basis.

9.9 Confidentiality

The school will carefully investigate the nature and seriousness of any drug related incident taking account of the needs of the students and any safeguarding issues this may present. For further guidance refer to; [Wirral's Safeguarding Policy and Procedure document](#).

In line with **General Data Protection Regulation (GDPR)** the need for confidentiality for those involved should be respected; however, the boundaries of such confidentiality should be made clear to students. If a student discloses information to a member of staff which is of concern the teacher must follow the school safeguarding policy, co-operate with a police investigation (if appropriate), and refer to external services (if appropriate). For further guidance refer to; [Government guidance and regulation for GDPR](#)

Parents/Carers

Subject to the **General Data Protection Regulation (GDPR)** parents/carers will be informed about the incident at the earliest possible stage and about the school's response unless there are concerns about the child's safety as a result.

In any situation where the student may need protection from the possibility of abuse, the school's Designated Safeguarding Lead, the Head of Student Services, will be consulted. Usual safeguarding procedures will be applied. School recognises the importance of adopting flexible procedures that ensure a co-ordinated, consistent approach to dealing with drug related incidents.

Any response should balance the needs of the individual with those of the wider school community, and aim to provide students with the opportunity to learn from their mistakes and develop as individuals. The needs of students in relation to drugs may come to light other than via an incident, for example, through the pastoral system. Given that drug problems rarely occur in isolation; responses may need to take a holistic approach rather than focus solely on drugs. As a school we will:

- Take a flexible approach whilst maintaining consistency and fairness.
- Carefully assess the situation and the options for action.
- Consider the impact of sanctions on the student involved, on other students, on the school as a whole, on parents/carers and on the wider community.

Punitive and uncaring actions may stifle dialogue between staff and students as a whole. Other students become less likely to approach teachers if they have problems with drug use. Students need to see that rules and sanctions are used consistently and fairly and that teachers are approachable and able to also offer support and care.

Owned:	Outcomes and Performance
Reviewed:	Spring 2020
Ratified:	Summer 2022
Next review:	Spring 2022

A range of responses will be considered. These are:

- Early intervention and targeted prevention.
- Team Around the School referral – e.g.: Student Support, School Counsellor, Health Service for Schools, Youth Offending Team, Social Services, Response, 0-19 Team
- Behaviour Support Plans.
- Managed Moves.
- Fixed Term Exclusion.
- Permanent Exclusion.

9.10 Parents/Carers under the influence illegal substances or alcohol on school premises

Staff should maintain a calm atmosphere. If it is unsafe to discharge a child into the care of a parent/carer, the teacher should discuss with the parent/carer if an alternative arrangement could be made, e.g. with another parent/carer or appropriate family member. Consideration will be given to invoking child protection procedures. Any concerns in relation to parents/carers under the influence must be reported to the designated safeguarding lead.

9.11 Staff conduct and illegal or unauthorised substances

Teachers have a duty of care to students in school and on school trips. Staff must, therefore, not be under the influence of illegal or unauthorised substances during the school day.

If staff are away from school for an extended period with a group of students then obviously it is very important, on a daily basis, to identify nominated members of staff to take responsibility at all times. Whilst on duty, staff must not be under the influence of any illegal or unauthorised substance or alcohol.

9.12 Discipline

The Schools response to a drug-related incident will remain balanced to the needs of the individual students concerned within the wider school community. In deciding what action to take school will follow their own disciplinary procedures, ie:

- School have a duty of care to respond competently and fairly to any incidents involving drugs and offer a range of options for their response to the identified needs of those involved;
- Students involved in drug related activity may be issued with a permanent exclusion, a fixed term exclusion or, in safe and appropriate and alternative may be explored such as a Managed Move to another school.
- More details on excluding students can be found in the [Exclusion from mainstream Schools, academies and student referral units in England](#)

9.13 Involving the Police

The police will be involved, where appropriate. A full record of the incident recording details and the police incident reference number must be kept.

Prenton High School works in partnership with the local police. We take their advice and involve them appropriately and when deemed necessary.

999 should only be dialed in the case of an emergency. Drug related incidents will be reported to the Wirral Schools Drugs Advisor (SDA)

Lea Sloan Barnardo's 0-19 Health and Wellbeing Service (Wirral Community NHS Foundation Trust)
Tel: 0151 650 5488 or 07703380957.
Lea.sloan@barnardos.org.uk

101 may also be dialed to report an incident that is not deemed to be an emergency.

Reviewed:	Spring 2020
Ratified:	Summer 2022
Next review:	Spring 2022

9.14 Drug Dogs and Drugs Testing

The Association of Chief Police Officers (ACPO) recommends that drug dogs and drug testing should not be used for searches where there is no evidence for the presence of drugs on school premises.

However, schools may choose to make use of drug dogs or drug testing strategies if they wish. It is advisable that the school consults with their local Schools Drugs Adviser and local police. If school chooses to respond with the use of drug dogs, that's this should do so as part of a warrant-led operation.

Refer to; [DfE and ACPO Drug Advice for Schools \(2012\) Department of Education and association of Chief Police Officers](#)

9.15 Handling the Press and the Media

All press enquires must be handled through the Headteacher in conjunction with Wirral Press and Public Relations Office based in Wallasey Town Hall 0151 666 8088.

11 MEDICINES IN SCHOOL

Procedures for Administration of Medicines

1. Parents/carers should provide full written information about their child's medical needs.
2. Prior written agreement should be obtained from parents/carers for any medicines to be given to a child and this should be done using the 'Request to Administer Medication Form'.
3. The school will only accept medicines that have been prescribed by a doctor, dentist, nurse prescriber or pharmacist prescriber.
4. All medicines should be provided in the original container as dispensed by a pharmacist and should include the prescriber's instruction for administration. In all cases this should include: Name of child, name of medicine, dose, method of administration, time/frequency of administration, any side effects and expiry dates.
5. The information contained within the 'Request to Administer Medication Form' should match the information on the container. Where any discrepancies appear, parents/carers should be contacted for further information / written approval.
6. It is the responsibility of parents/carers to advise of changes in medication and dosage and this should be done by submitting a revised 'Request to Administer Medication Form'.
7. Staff must never give a non-prescribed medicine to a child unless this is part of an individual Health Care Plan, involving specific prior written permission from the parents/carers.
8. A child under 16 must never be given aspirin or medicines containing ibuprofen unless prescribed by a doctor (as per National Guidance).
9. All medication should be kept in a locked cabinet in the Main Office.
10. A number of key staff have received training in administering medication.
11. In the unlikely event that none of the above are available and where timing of medication is essential, parents/carers should be contacted to advise.
12. Administration of medication should be recorded in the 'Record of medicines administered to children' form which is kept next to the medicine safe in the main office.
13. All documents relating to the above should be kept securely with the medication and accessed by authorised personnel only.

12 SMOKING IN SCHOOL

- The school and grounds is a smoke free environment, and as such smoking of cigarettes, cigars, tobacco and e-cigarettes is not permitted on the entire premises.
- The school aims to provide a supportive environment for those who wish to stop smoking.
- Students who smoke on the school premises, or in school uniform off school premises, will receive consequences in accordance with the school's Behaviour for Learning Policy. Parents/carers will be contacted unless this puts the child at risk.
- The school promotes the health and welfare of all who work in or visit the school.

13 ALCOHOL IN SCHOOL

Alcohol related deaths total 50,000 a year and a large proportion of violent crime and anti-social behaviour is alcohol related. Furthermore 25% of 11-15 year olds admit to drinking once a week while the figure for 15 year olds alone is 47%. It is, therefore, important that:

- Students must not drink alcohol at any time during the school day, or whilst on school activities or trips.
- Students must not bring alcohol onto the school premises for consumption.
- The school aims to provide staff or student's access to support where drinking is a problem.
- Students who drink alcohol or bring alcohol onto the school premises will receive sanction from the school's Behaviour for Learning Policy. Parents/carers will be contacted unless this puts the child at risk.
- Safeguarding procedures will be applied if any adult brings alcohol onto the premises or if under the influence of alcohol.

14 STAFF TRAINING

Safeguarding is delivered to all members of staff. Initial teacher training requires Newly Qualified Teachers to be familiar with the PSHE curriculum, and to be prepared for their Form Tutor responsibilities.

Owned:	Outcomes and Performance
Reviewed:	Spring 2020
Ratified:	Summer 2022
Next review:	Spring 2022

The school's programme of Continuing Professional Development provides opportunities for teachers who teach drugs education or deal with drug related incidents to develop the skills, knowledge and confidence required when addressing drugs issues with students.

15 THE ROLE OF GOVERNORS

Governors contribute to the development of this policy and have ratified it.

The Governors of Prenton High School take the issue of substance misuse very seriously, and support the Headteacher and staff in maintaining Prenton High School as a 'drug free zone'. In cases where students are excluded from school on drug related matters, the Chair of Governors is informed; any appeal against exclusion on a drug related matter will involve the Governing Body.

APPENDIX 1: RESPONSE TO DRUG AND ALCOHOL MISUSE AT PRENTON HIGH SCHOOL

The supplying of drugs	<p>This will usually lead to a permanent exclusion.</p> <p>Our definition of supplying is providing illegal substances to others. Additionally, any person carrying large amounts of banned substances would also put themselves at risk of permanent exclusion.</p> <p>Anyone suspected of supplying drugs will be the subject of a detailed investigation to collect information. If on the balance of probability, the person is believed to be supplying we will usually exclude permanently based on the need to ensure the safety of other students.</p>
Under the influence of drugs	<p>This will lead to Fixed Term Exclusion, a Permanent Exclusion or a move to another school, following Managed Move procedure</p> <p>Students who use illegal substances and then present themselves on school premises will be excluded. The basis of the decision will be made using the detailed signs and symptoms of substance abuse.</p>
In possession of drugs	<p>This will lead to a Fixed Term Exclusion, a Permanent Exclusion or a move to another school, following Managed Move procedure</p> <p><u>Please note:</u> If a student is found in possession of a controlled substance on school premises, the school has the right to take into consideration other evidence of previous poor or disruptive behaviour when considering whether a resultant exclusion is to be fixed-term or permanent. This means that a student with a history of poor behaviour who is found on school premises in possession of an illegal substance is at risk of permanent exclusion. In all cases, it is at the discretion of the Headteacher whether such behaviour shall be taken into account. On occasions in which a student is found in possession of a controlled substance:</p> <ul style="list-style-type: none"> • Drugs will be confiscated. • Police will be informed. • Support will be offered.
Alcohol	<p>Drinking alcohol on site/bringing alcohol on to site with the intention of drinking it/supplying it to others, etc. will result in a Fixed Term Exclusion or Permanent Exclusion. A Managed Move may also be appropriate dependent on the student's behaviour record.</p>
